10	Q	Check the Spring Slides located on the Tracks isn't damaged	Replace
11	Q	Check the Spring Slides on the Tracks, slides up and down smoothly	Apply a small amount of dry silicone spray
		Frame	
12	D	Clean all vinyl upholstery daily, as a minimum. Use a mixture of water and some ordinary mild "Sunlight Pure Soap", cut into little flakes and placed in a spray bottle. Clean with a towel, cloth or paper towel. NOTE: Don't use other products such as chemicals, bleach, tea tree or eucalyptus oils, alcohol wipes or methylated spirits, or detergents- as they deteriorate vinyl. Human sweat also causes vinyl deterioration. The vinyl has an antibacterial coating and doesn't need harsh cleaners.	See equipment instructions
13	Q	Check Seat upholstery for damage	Recover - Call local upholsterer
14	Q	Check all screws and bolts are tight	Tighten
15	Q	Check timber frame structure has no cracks	Contact Pilatesequip™ with photos
		Springs	
16	W	Check all springs by slightly stretching the spring from the spring's loop at the end of the spring, until the coils just start to open. If a small section of the spring barrel separates while the rest of the coils remain close, the spring is faulty. Also look for obvious bends/kinks in the spring's barrel. Make sure that spring's loops haven't travelled up the spring's coned coils	If any springs show these issues, replace spring
17	W	Check all spring clip arms are closing properly	Replace
18	Q	Check age of springs. It's recommended to replace springs that are older than 8 years	Replace springs
		Adjustable Side Handles on Combo Chairs	
19	Q	Check that the Adjustment Indexing Pin retracts back into the holes and that it also turns to the lock	Replace Adjustment Indexing Pin
20	Q	Check that the Adjustment Indexing Pin turns to the lock position	Replace Adjustment Indexing Pin
